DESMOND KUMCHU

I am an experienced 3D generalist with strong skills in asset modeling and animation. My experience lies in creating 3D assets and animations for interactive WebGL and WebXR projects.

EMPLOYMENT HISTORY

3D GENERALIST: FREELANCER AT FIVERR/UPWORK

2018 – Jan 2020

- Developed high-quality character models and assets to meet client specifications.
- Implemented character rigging solutions tailored for Unity game engine compatibility.
- Produced visually stunning renders of products and interiors, meeting client requirements and deadlines.

3D ASSET VISUALIZER AT AUGMENTED AND VIRTUAL REALITY HUB, DUBAI

Feb 2020 – Jan 2022

- Gathered photo references and use them as guidelines for 3d modeling and texturing of assets used in Augmented Reality.
- Resolved technical issues relating to rendering, streaming and memory management and supported comprehensive troubleshooting.
- Maintained comprehensive knowledge of character rigs, animation pipelines, animation integration into game engines and current animation tools.

Certificate of services and recommendation letter [Here](#)

3D PRODUCT VISUALIZER (FREELANCER) AT AMAZON

Apr 2022 – Oct 2023

- Use photo references as guidelines to textures and model products for Amazon 360o view.
- Used [Microsoft-Excel] to manage documentation of new and revised 3D designs.
- Demonstrated creativity and resourcefulness through the development of innovative solutions.
